Title: (UI) In 2 nd screenshot, Mercedes logo representing the different showroom locations for several locations isn't there	
Description: Mercedes Logo representing locations is missing for several showroom addresses	
Severity: 2	

Hi,

In 2nd screenshot, Mercedes logo representing the different showroom locations for several locations is missing. Instead showroom locations are represented by numbers and one location is shown in blue color.

How to reproduce the issue:

1. Select a vehicle model.
2. Try selecting a dealer in the map; You will observe showroom locations represented using numbers, few in Mercedes logo and one in blue color.

Expected: Uniformity in UI representing the showrooms in map. As there is no uniformity, UI should be corrected.

Could you please look?

Thanks and regards,
Rohit

Title: (Screenshot 5) pickup date should be 'Select the date' instead of any particular date.	
Description: Pick up date should be today's date or today's date +1 if store is closed or it should dd-mm-yy format.	
Severity: 3	

Hi,

Pick up date currently is hard coded with today's date + 2 days. Instead it should be "Select the date" or "dd-mm-yy". When selecting the date, user should select it based on showroom availability calender. Otherwise, if user selects the default date and showroom is closed on that date, it will create problem.

Expected: Expected should be in the 'dd-mm-yy' format or 'Select the date'.

How to reproduce the issue:

1. Select a vehicle model;
2. Select a dealer in the map;
3. Confirm the selected dealer;
4. Confirm the selected vehicle and choose a motorization;
5. Choose a date and time; You can observe date as 9/7/23 and we are testing the application on 7th of July.

Title: (1st screenshot) 120 kw specified for petrol car which is wrong.

Description: 120kw should be specified for electric car

Severity: 1

Hi,

Generally, electric cars are specified with specifications such as 120 kw. But here, petrol car is specified with 120 Kw.

Expected: Either car is electric or petrol car specifications such as engine torque or engine capacity should be there. This ambiguity needs to be cleared.

How to reproduce:

- 1) Search and observe the specifications for A 200 Hatchback cars
- 2) You will observe the ambiguity.
